

WOVEN ACORN

Instructions

1. Colour acorn and leaves and cut along outlines.
2. Cut along the dotted lines (fold in half, perpendicular to dotted lines to make it easier to cut). You should now have slots where the dotted lines used to be.
2. Cut long thin strips of coloured paper about 1 cm wide.
4. Take the coloured paper strips and weave them through the slots on the acorn, over and under, moving from one end to the other.
5. Cut off any excess paper at the ends of the strips, and glue in place.
6. Attach leaves to your woven acorn.
